Jeffrey Ching

Contact	jeffrey.ching@duke.edu https://jeffreyccching.github.io

Research Keywords	Information flow security; Program analysis; Static analysis

Education

Duke University — Expected 2027
Ph.D. in Computer Science
Advisor: Danfeng Zhang

Penn State University — Transferred 2023
Ph.D. in Computer Science

Syracuse University — 2021
Master in Computer Science
Advisor: Kristopher Micinski
Thesis: Enhancing Usability of Malware Analysis Pipelines with Reverse Engineering.

Professional Experience

Amazon AWS, Applied Scientist Intern — Jun. 2026 – Sep. 2026
Automating Semantics on Static Analysis Tool (Mentors: Subarno Banerjee, Craig Disselkoen, Michael Emmi, Tristan Ravitch)

- Built automatically generated semantics for an internal static analysis tool that analyzes AWS services.
- Developed formal semantics for AWS services in Lean.

Army — May. 2018 – Aug. 2018
Fortemedia, SDE Intern — Jun. 2016 – Aug. 2016

- Working on binary analysis
